BREXIT Statement

With the United Kingdom's decision to leave the EU TOA Corporation (UK) Ltd are constantly monitoring the situation and effect on the impact of the trade agreement with countries in the European Union. This will enable our Management Team to formulate our policies as the situation is clarified and ensure that we continue to offer the best possible product, delivery and customer service to our B2B clients.

Tariffs

We understand that the EU-UK Agreement goes beyond other EU free trade agreements and that zero tariffs and zero quotas will apply to goods. The current import duty for electronic goods is 0.00% on most products and therefore we do not envisage additional costs to be incurred across our product range relating to changes in tariff agreements. Our Management Team will continue to monitor the information issued relating to the EU-UK Trade Agreement and update our statement accordingly.

Shipping Partners

We are working closely with our shipping partner(s) to monitor any changes in cost and lead times and to address these as swiftly as possible should the need arise. We currently offer free delivery on orders to our UK distributors of over £100 and will quote for additional delivery charges on special projects prior to delivery.

GDPR and Personal Data

TOA is a Global organisation with 31 locations across the Globe. As a B2B organisation we work through our distribution networks and therefore do not hold any individual personal data. TOA is a large global organisation, we have the capacity to re-direct enquiries to our local offices worldwide, where necessary, to ensure the best customer service, lead time and delivery of local stock.

Testing and Certification

The UK will move to the UKCA marking system from 1 January 2021. The assessment processes that demonstrate conformity will be, by enlarge, the same as they are now but whilst companies go through this transition phase the CE mark will be acceptable for most products until 1 January 2022.

Stock Strategy and Supply Chain

We will continue to monitor our stock levels for UK to ensure that the supply and demand chain continues to operate effectively through the transition period.
